

Australasian Information Security Conference (AISC) 2009

<http://www.informatics.uow.edu.au/aisc2009/>

Preliminary Call for Papers

AISC aims at promoting research on all aspects of Information Security and increasing the synergy between academic and industrial researchers working in this area. It is a one-day conference to be held in conjunction with the Australasian Computer Science Conference, as part of Australasian Computer Science Week in Wellington, New Zealand, 20 – 23 January 2009.

We seek submissions from academic and industrial researchers on all theoretical and practical aspects of information security. Suggested topics include but are not restricted to:

- Access control
- Anonymity and pseudonymity
- Cryptography and Cryptographic protocols
- Database security
- Identity management and identity theft
- Intrusion detection and prevention
- Malicious software
- Network security
- Privacy enhancing technologies
- Privacy preserving data mining
- Security of statistical databases
- Trust and risk

Program Co-Chairs

Ljiljana Brankovic (University of Newcastle, Australia)

Willy Susilo (University of Wollongong, Australia)

Program Committee

Joonsang Baek (*Institute for Infocomm Research, Singapore*)

Lynn Batten (*Deakin University, Australia*)

Colin Boyd (*Queensland University of Technology, Australia*)

Ljiljana Brankovic (*University of Newcastle, Australia*) – PC Co-chair

Robert H. Deng (*Singapore Management University, Singapore*)

Sushil Jajodia (*George Mason University, US*)

Javier Lopez (*University of Malaga, Spain*)

Luke McAven (*University of Wollongong, Australia*)

Adrian McCullagh (*Queensland University of Technology, Australia*)

Chris Mitchell (*Royal Holloway, University of London, UK*)

Yi Mu (*University of Wollongong, Australia*)

Miyako Ohkubo (*NTT Labs, Japan*)

Milac Petkovic (*Philips Research Europe*)

Josef Pieprzyk (*Macquarie University, Australia*)

Rei Safavi-Naini (*University of Calgary, Canada*)

Willy Susilo (*University of Wollongong, Australia*) – PC Co-chair

Huaxiong Wang (*Nanyang Technology University, Singapore*)

Duncan S. Wong (*City University of Hong Kong, Hong Kong*)

Jianying Zhou (*Institute for Infocomm Research, Singapore*)

More to be added.

Tentative Key dates (*NZDT, 23:59pm*)

Submission of paper	Sunday, September 7, 2008
Notification of Authors	Monday, November 3, 2008
Final version due	Monday, November 24, 2008

Instructions for Authors

Authors are invited to submit original papers: they must not substantially duplicate work that any of the authors have published elsewhere or have submitted in parallel to any other conferences that have proceedings. The submission must be *anonymous, with no author names, affiliations, acknowledgements, or obvious references*.

Original contributions up to *12 pages* in length, excluding bibliography and appendix, are invited (or *20 pages* in total). Papers should conform to the formatting instructions for the series Conferences in Research and Practice in Information Technology (available at <http://crpit.com/>). Submitted paper must be written with at least 11pt with reasonable margins.

Papers will be judged on originality, significance, correctness and clarity. The contribution of the paper should be clearly explained in both general and technical terms. Submission of a paper includes a commitment that, should the paper be accepted, at least one author will attend the workshop to present the work.

Papers must be submitted electronically. Submissions must conform to this procedure and be received by **Sunday, 7th of September, 2008** to be considered. Late submissions and non-electronic submissions will not be considered. The detail of the submission procedure will be available at <http://www.informatics.uow.edu.au/aisc2009/>.

Student Paper Prize

Provided that at least five student papers are accepted for AISC2009, the program committee will nominate the best one for a best student paper prize (\$500). Papers are counted as student papers if the major contribution is due to a student author, who must be the first author of the paper.

Authors have to indicate at the time of submission that their paper is to be classified as a student paper. The supervisor or the Head of Department must sign a statement to verify that the principal author is a student at the time of submission.

Publication

Proceedings will be published in revised form through the Australian Computer Society (ACS) in its Conferences in Research and Practice in Information Technology (CRPIT) series in Information Security 2009. At least one author must register for the workshop to ensure publication of the paper.

It is planned after the workshop to invite authors of selected papers to submit extensions of their AISW contributions to a special issue of a journal, where they will be refereed according to the editorial standards of the journal.
