

Casual Junior Business Analyst

University based, Niche' software development company, casual role with progression to permanent.

Itree is a professional software development company with a proven track record of providing high quality, reliable and cost effective services to its clients. We specialise in world leading high-technology business applications in the National Transport sector working closely with Compliance and Enforcement agencies throughout Australia and New Zealand.

Itree rewards its staff with competitive salaries, flexible working conditions, training and the opportunity to advance their career.

Job Description

Due to continuing growth, Itree are now seeking a casual junior Business Analyst role who is available for 20-40 hours per week to work within the Business Solutions Group to:

- * Assist the Business Analysts to deliver high quality functional specifications,
- * Assist the Business Analysts to clarify and refine business requirements to enable a workable and professional business solution to be developed and delivered.

Desirable capabilities include:

- * Excellent academic results
- * Willingness to gain experience in documenting high quality System Requirements Specifications, Interface Specifications and Report Specifications in a software development project environment for nationally deployed enterprise web applications
- * Excellent verbal, listening and written skills,
- * Expertise in using spreadsheets, word processing, presentation tools and diagramming tools
- * Knowledge of Business analysis techniques, modeling tools, and processes as these apply to the SDLC

The position is located in the Itree Wollongong office located on the campus of the University of Wollongong.
